

# ISG™ Patient Photo Wristbands

## Enhancing Positive Patient Identification

To enhance positive patient identification, some healthcare organizations want to capture the patient's photo and print it onto the patient wristband.

Your local ISG dealer offers complete solutions for capturing the photo and printing the wristband. Black & white as well as color wristband printers are available. Our easy and seamless photo capture solution, called SmartFoto, allows you to implement without a major investment in money, IT time, and training. There is virtually nothing to learn and you do not have to switch applications or purchase expensive middleware.

## Identification Systems Group

— ISG™ is a nationwide network of local experts in identification, security, and card personalization, providing high quality, cost effective solutions backed by local support and the strength of our Professional Services Certification program. Each company works together to provide seamless nationwide support and collaboration in the identification and card issuance industry.
