## -- COMMAND WORK CENTER --

Our new Command Work Center is rugged, constructed of high-performance resin, and impervious to dust and water. Each case holds the essential equipment for on-scene Incident Command, in one easy-to-transport, flexible-use case.

**COMMAND™**  
WORK CENTER

### -- KEY BENEFITS --

- Customizable removable laptop with air management system.
- Built-in power management, no re-cabling required, all cords are kept connected and hidden.
- Removable legs that can be stored inside case for transport.
- Handheld chargers stored in the case, pre-connected with back up batteries!
- Designed with weight in mind—64 lbs empty—under a 100 lbs full.
- Increased efficiency and workflow—just open the case and you're ready to go!

### -- EACH COMMAND CENTER HOLDS --

- An access point -- A rugged laptop of any size -- 4 PDA's with cradles -- A hand scanner -- A First Due Board -- An Incident Management Binder -- A Laminated Incident Management Sheet -- 2 towels -- LED lights

### -- OTHER FEATURES --

- Canvas shield provides protection from sun/rain and prevents glare on the laptop screen.
- Holds 4 individual PDA cradles or one 4 port PDA cradle.
- Built in plastic table top provides a work/writing surface, and helps to keep dust and dirt away from equipment.
- Built in Quick Start Guide.
- High quality foam will not degrade and contains no glue.
