

# Design Center 2300

The Design Center 2300 is the central hub for the VariQuest Visual Learning Tools. Pre-loaded with VariQuest Software, the Design Center guides staff and students through the easy creation of customized posters, banners, cutouts, manipulatives, awards and stickers. Bring the power of touch to your workroom and boost productivity using the latest touch screen technology!

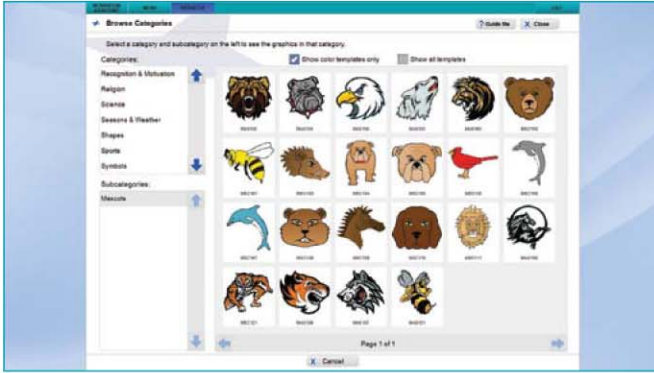

DC2300 |

## Benefits of Design Center 2300:

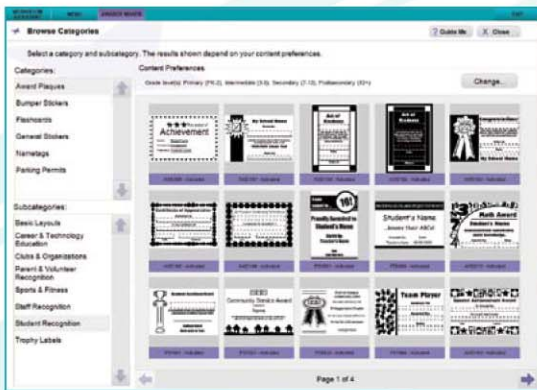

- Preloaded with VariQuest software and includes all the necessary utilities to use with VariQuest products right out of the box.
- Minimize setup and training with easy-to-use touch technology and intuitive screen navigation.
- Large 23-inch display and powerful processor allow for fast template searching, browsing and printing.
- Quickly upload mascot images, photos and logos with the easy-to-access, built-in USB ports or CD/DVD ROM.

# Design Center Software

The award-winning VariQuest Design Center Software is the heart of the VariQuest Visual Learning Tools. It provides access to more than 2,000 curriculum-based poster, award and flashcard templates as well as 5,000 graphics, saving schools the time and resources associated with the creation of handmade or outsourced materials.

**(Valued at \$495)**

## Use the Design Center Software to:

- Spend less time on lesson prep and more time on instruction!
- Transform classrooms into engaging and print-rich learning environments.
- Support student achievement and retention with customized instructional supports.
- Differentiate instruction and improve academic achievement for students with special needs.
- Easily customize templates with your own images, school mascot and logo.
